WELCOME

YOUR WEEK IN THE SNOW AT PROSNEIGE

## CHILDREN GROUPESSONS

- The first day we will stick a label with your telephone number on your child's helmet.
- Our kids will have a little break during their lessons, you can always slip a little snack in their pockets of their ski jacket.
- The first day we will hand out our bibs, green ones for the conventional lessons and blue ones for all children that are also booked in for lunch. You can keep the bibs during the week and hand them back in after the last lesson.
- We evaluate the progression of each child during the lessons. Should a level be too low or too high, instructors will react immediately and we will change groups. Sometimes to be put a level lower can be seen as an unpleasant action. Make notice that our instructors work every day with children and the last thing that we want is to demotivate children so we are very receptive for feedback and open to explain you why children are changed in between groups. Most teachers and our people in our management have children of their own, and also we like to see our children progress at their own pace.

## ADULT GROUP LESSONS

- Please be on time for your lessons! We advice 15 min. before your lessons are due.
- Our instructors have got listings with your names and welcome at the flag of your level.
- It could be possible that you will start with more than 10 persons in a group during high season weeks, don't worry several teachers will be appointed and logically they will split up during the first lessons. This called 'harmonizing on the field'.
- We evaluate the progression of each adult during the lessons. Should a level be too low or too high, instructors will react immediately and we will change groups. Sometimes to be put a level lower can be seen as an unpleasant action.
- Make notice that our instructors work every day with groups and the last thing that we want is to demotivate our participants so we are very receptive for feedback and open to explain you why you could be changed in between groups.
- Due to harmonization, on Monday it could be possible that other persons will join your group. Don't worry our instructors are updated.
- In some cases your name will not appear on the teacher's listing. Don't worry as mostly these are bookings on another name or by a Tour operator. You can just follow the lessons as booked!

## ADULT BEGINNERS

- Meeting at 09h30 at our chalet 'Les Planches' at our meeting point for a little breakfast and to meet your instructor
- You do NOT need your poles the first day.
- You can come easily with soft boots to our meeting point and get your ski boots on at our chalet at the meeting point.
- You can even leave your equipment after the lesson at our meeting point for the next day.
- It could be possible that you will start with more than 10 persons in a group during high season weeks, don't worry several teachers will be appointed and logically they will split up during the first lessons. This is called 'harmonizing on the field'.
- Everybody is unique and some of you will progress faster than others! Don't let this scare you off! We guarantee you that on your own pace you will conquer those first green and blue slopes at the end of the week!

## YOU ARE LATE

- Enlist yourself at our information point/office in our chalet Les Planches at our meeting point.
- Make notice that if a group left for a certain itinerary it could be difficult to join.
- We will try our best to reach our instructor to pass by at the meeting to pick you up. As you are late we cannot punish the rest of the group who were on time!

## LIFT PASS

- A local lift pass for 6 days VAL THORENS/ORELLE will be required. For the advanced levels we will ask for an extension during the week, or it is advised to have an extended lift pass.
- Your lift pass always goes at the left hand side in your pocket! You don't need a photo for your lift pass!
- Kids younger than 5 years old can benefit from a free lift pass. Don't forget to collect this free pass at the official offices of the SETAM. You will be asked for a justification of the exact age (passport).
- If you have got your lift pass by Prosneige, our ski instructor will hand these out or you can collect them the day of arrival in one of our 2 offices.

## MEDALS

- On Friday there will be a gathering at our meeting point for the children's medal ceremony! Everybody is welcome and hot chocolate for everybody. We even got something stronger for adults!

## THE BEST SERVICE POSSIBLE ON SITE

- Every Tuesday morning free ski test (newest skis 2018)

## KINDER GARDEN: LITTLE BEAR and BROWN BEAR

- Margaux, our responsible at our kindergarten will welcome you in front of our Prosneige chalet. She is wearing a pink ski jacket and grey ski pants.
- The first day we will stick a label with your telephone number on your child's helmet
- Our kids will have a little break during their lessons, you can always slip a little snack in their pockets of their ski jacket
- The first day we will hand out our bibs, green ones for the conventional lessons and blue ones for all children that are also booked in for lunch
- There will be several people like Margaux and Irina helping the ski instructor in our kinder garden, as we want to guarantee a good quality of tuition. All children will progress at their own pace and we will anticipate this.

## Progression of your child:

- All groups will be created the first day at our kinder garden so that all children can progress at their own pace. They will leave the kinder garden in little groups to go on their first slopes.
- From the moment that a ski instructor considers that a child can stop autonomously these children will go on the big beginner zone of Val Thorens.

## You child is crying: Don't worry!

- Some children need some more time to adapt to the environment, the ski instructors and the people around them. We always go the extra mile and make sure they adapt slowly. We have got Margaux and Irina that are the go to persons for children. We even go a bit inside to warm up and try to get children back on skis.
- Even if it doesn't work out in the beginning, don't worry. Children progress faster than adults and we are sure that your child will go for their first green and blue slopes at the end of the week.
